To all potential Customers for tests of road marking systems

Tests of road marking paint systems according EN 13 197

Dear ladies and gentlemen,

the Federal Highway Research Institute will soon conduct type approval of road marking systems made of paints at its wear simulator. The invitation and further information you’ll find on our homepage www.bast.de Verkehrstechnik / Qualitätsbewertung / Prüfungen Straßenausstattung.

The first applications of the road marking systems will take place in week 18 (27th – 30th April 2020) at BASts facility.

If you want to submit samples for testing, please inform us of your intention in writing or email at EPM@bast.de until 27th March, 2020 at the latest. Your announcement should state the number of marking systems and include the following details:

• Marking type (I or II)
• Kind of marking (high solid, water based paint)
• Application device (airless, compressed air, etc.)

Send in your application on a copy of this letter’s rear. Additional please send the safety data sheets for the road marking material, you plan to use, so we can accept your application.

Please note that the testing places are given in accordance with the order of application and the application method. Subsequent changes to the corresponding sample might cause the sample to be shifted to another test run.

If required, several type approvals can be conducted. To help us meet your requirements, please specify realistic quantities of marking systems.

As soon as allocations are complete, we will inform you about further participation procedures and the number of stations placed at your disposal.

Please note that the attached contract conditions were revised.

Kind regards,  
on behalf  
M. Zedler
