

Statement on tests performed before the year 2018

The following road marking systems tested before the year 2018 at BAST are still produced, used in praxis and shall remain in the „Freigabeliste“ on the BAST-homepage:

Statement on tests performed before the year 2018				
Test number	Applicant	Name of the system	Name of the road marking material	Drop-on material

Statement on tests performed before the year 2018				
Test number	Applicant	Name of the system	Name of the road marking material	Drop-on material

With my signature I confirm, that all road marking systems listed above (road marking material and all additional materials such as drop-on materials or primer) are produced today with the identical formula as the associated approval tests in the past.
